Google Analytics, Campaign Performance Analysis, Conversion Tracking, SEO Data Analysis, Reporting & Data Visualization

Web & Product Development:
React.js, JavaScript, HTML5, CSS3, WordPress Development, Responsive UI Design

AI & Automation:
AI Tools & Workflow Automation, AI-assisted Tagging, Prompt Engineering

Platforms & Tools:
Google Colab, Git, VS Code, Microsoft Excel, Microsoft PowerPoint, Microsoft Word

Professional Experience

Digital Marketing Specialist
Saksham Real Estate & Investment Pvt. Ltd.
May 2025 – November 2025

- Managed multi-channel digital marketing campaigns, increasing engagement rate by 20%
- Increased website traffic by 15% through performance-driven campaign optimization
- Generated 70+ qualified leads per month through targeted paid advertising campaigns
- Reduced cost-per-lead by optimizing audience targeting and ad spend allocation
- Built interactive KPI dashboards tracking traffic, engagement, and conversion metrics, improving campaign performance visibility and reducing reporting time by 30%

Projects

DShare – Hybrid Blockchain File Sharing Platform
Technologies: React.js, IPFS, MetaMask, AI Tagging

- Designed and developed a decentralized file-sharing platform with blockchain-based authentication for secure file access
- Implemented AI-powered file tagging system, improving file search efficiency by 40% during testing
- Reduced frontend page load time by 25% through component optimization and lazy loading
- Improved file retrieval speed by optimizing IPFS integration
- Built user interaction monitoring interface to track upload/download behavior

Expense Analytics Dashboard
Technologies: SQL, Python, Power BI

- Processed and analyzed 5,000+ transaction records using SQL and Python
- Identified spending trends leading to 15% potential cost optimization
- Built interactive Power BI dashboard tracking 6+ financial KPIs
- Automated reporting workflow, reducing manual reporting time by 30%
- Improved data accuracy by cleaning and normalizing raw datasets

MediCare – Healthcare Web Platform
Technologies: HTML, CSS, JavaScript, React

- Developed responsive multi-page healthcare web application with appointment booking functionality
- Improved mobile responsiveness by 30% through UI optimization
- Integrated user behavior tracking to analyze engagement patterns, improving conversion flow and enhancing overall user interaction performance
- Reduced page load time through frontend performance tuning

Education

Bachelor of Computer Science (Ongoing)
Institute of International Management Science (IIMS), Kathmandu
2022 – 2026
Relevant Coursework: Database Systems, Data Structures & Algorithms, Statistics, Software Engineering
Applied data analysis techniques using SQL and Python in academic projects.

Higher Secondary Education (+2)
GoldenGate International Secondary School
2020 – 2022
GPA: 3.09

Certifications

Data Analytics & Business Intelligence
Vrit Jobs Pvt. Ltd. | 2026

Digital Marketing (360)
Broadway Infosys Pvt. Ltd. | 2024

Drone Operation & Aerial Photography
Fotology Academy | 2025

Awards

- Winner – NCC 45th Batch Inter-Unit Football Championship
